

**Appendix 4 – Response to Objections**

| <b><i>Objection</i></b>  | <b><i>Comment</i></b>  |
|--|--|
| Increased traffic and noise  | The proposal will result in an increase in traffic. However, High Street and the surrounding road network are capable of accommodating this increase in traffic. Councils Engineering Department and Vic Roads have not raised any concerns in relation to traffic or requested any works be undertaken to High Street to accommodate the level of traffic likely to be generated by proposed use and development. |
| The proposed vehicle entry/exit on the eastern side should be entry only to reduce traffic congestion on High Street | The proposed vehicle entry/exit on the eastern side of the school building will not result in adverse traffic impacts to High Street. Councils Engineering Department and Vic Roads have not raised any concerns in relation to the location or function of the proposed vehicle crossovers.   |
