

Item 12.3 Response to Notice of Motion 629 (Cr Majdlik) - Option to Provide Extra Synthetic Soccer Pitch in the Current Synthetic Pitch at Brookside Recreation Reserve Caroline Springs, With North South Orientation.

Appendix 2 An extra pitch layout, North South orientated on the existing synthetic sportsground - undated

---

## Attachment 2

To overlay an additional pitch on the current synthetic sportsground orientated North South, 2 pitches of the size 60m x 40m could be provided. This size pitch/es would only accommodate low level junior soccer (under 9 and 10) and not senior soccer as per current provision for senior soccer on the existing pitch. The maximum size pitch that could be located North South over the existing synthetic pitch marked by the yellow dotted line below is 80m x 50m. Still not big enough to accommodate senior soccer as per existing senior pitch orientated east west..
