WALKING NETBALL EXPRESSION OF INTEREST

Walking Netball is a modified version of the traditional game initiated by Netball Victoria.

It is fully inclusive allowing anyone to participate regardless of their age, fitness level, ability or previous netball experience. As the name implies, Walking Netball is a slower version of netball performed at a walking pace. Walking Netball has a strong emphasis on getting people to participate in an enjoyable, safe environment rather than focusing on the competitive aspect.

If this competition is something you have been seeking or of interest, we would love to hear from you.
