

Comfort sling range

Comfort Sling Range covers all sizes from extra small to extra extra large. Manufactured here in Australia from the highest quality materials, the extensive range offers both fabric and mesh woven from 100% polyester specifically for the application. Although we offer a great selection of standard slings in the Comfort Sling Range, everyone is unique and their needs are different. That's why we can customise any of the standard Comfort Sling Range to help suit your needs better. We can modify an existing sling like adding an extra strap or loop or we can start from scratch. Once the custom sling has been made, it is then weight tested to ensure its strength. We also have flotation slings - great for use in the pool or spa.

GENERAL PURPOSE SLING

Available in fabric or mesh, the General Purpose Sling comes in six sizes. Suitable for most lifting situations. The leg parts are firmly padded to make it more comfortable for the user. Easy to fit, the sling provides good support for patients with some upper body control. For use with standard yoke and four point yoke.
