## LITTER AND DUMPED RUBBISH

Litter and dumped rubbish is not only unsightly, but also creates significant environmental impacts across the municipality.

In an average year, close to 3,500 tonnes of illegally dumped litter is collected in the City of Melton, costing Council over \$1.5 million to collect and dispose of.

**Littering and dumping includes:**

- unwanted household items, general rubbish, clothing that is put on naturestrips, roadsides and outside charity op shops
- soil and other building materials left outside a construction site or on road reserves
- putting household or business rubbish in a public litter bin.

To report dumped rubbish or if you witness dumping occurring you can complete a Litter Report form online at [melton.vic.gov.au/dumpedrubbish](http://melton.vic.gov.au/dumpedrubbish)

If you commit a littering offence you can be fined up to \$6,600 and offenders may be summoned to appear in court.
