

Preschool Field Officer Program (PSFO)

City of Melton

How can a PSFO support your child?

Kindergarten can be a big change in the lives of children, and one that many may need support with. If your child is finding kindergarten difficult or you have any concerns about their learning and development, ask their educators how we may be able to help. We are a free service who can provide a variety of support for your child.

For more information about our referral process and the support you can receive:
